

## **Preface**

## **Tribute to Vernon Plueckhahn**

## **Acknowledgements**

## **About the authors**

## **Table of cases**

## **Table of statutes**

## **Index**

### **1 Introduction: good medical practice in a changing environment**

- 1.1 Changes in medical education
- 1.2 Changes in the medical workforce
- 1.3 Changes in the practice of medicine
- 1.4 Changes in medical regulation
- 1.5 Changes in medical law
- 1.6 Changes relating to doctors' health and work–life balance
- 1.7 Community attitudes to the medical profession and health care
- 1.8 The implications of these changes
- 1.9 Responses to these changes
- 1.10 Other matters

### **2 On being a good doctor: professionalism and the art and science of medicine**

- 2.1 What is professionalism?
- 2.2 What does unprofessional medical practice look like?
- 2.3 Professionalism as a social contract

- 2.4 Self-regulation as a defining feature of a profession
- 2.5 What is driving the current focus on professionalism?
- 2.6 How is professionalism learned?
- 2.7 Fostering and maintaining professionalism
- 2.8 What are the attributes of a good doctor?
- 2.9 Coping with the demands of being a good doctor
- 2.10 Medicine: a science and an art
- 2.11 What constitutes the art of medicine?
- 2.12 How is the art of medicine best taught?

### **3 Ethical principles for the medical profession**

- 3.1 Some historical context
- 3.2 What are ethics?
- 3.3 An introduction to ethical thinking
- 3.4 A modern framework for discussing medical ethics
- 3.5 Ethical qualities desired of doctors
- 3.6 Modern codes of medical ethics
- 3.7 The rights of patients
- 3.8 Upholding ethical codes of conduct
- 3.9 The mutability of medical ethics
- 3.10 The law and medical ethics in conflict
- 3.11 Conflicts between ethical principles
- 3.12 Ethics beyond the doctor–patient relationship
- 3.13 Ethics and limited resources

### **4 Ethical and legal responsibilities of medical students**

- 4.1 Considerations before enrolment
- 4.2 Criteria for enrolment and selection procedures
- 4.3 Registration of medical students

- 4.4 Objectives of the medical course
- 4.5 Professional ethics for students
- 4.6 The student and the health-care team
- 4.7 Student health
- 4.8 Responsibilities of, and professional ethics for, medical teachers and supervisors

## **5 Communication in clinical practice**

- 5.1 Obstacles to effective communication
- 5.2 The use of communication skills in medical practice
- 5.3 Appreciating psychosocial factors in patients seeking medical help
- 5.4 The physical examination
- 5.5 Concluding the consultation
- 5.6 Working with interpreters
- 5.7 Transcultural issues and cultural competence
- 5.8 Communicating and telemedicine
- 5.9 Communicating when things go wrong
- 5.10 Coping with angry patients
- 5.11 Coping with ‘difficult’ patient–doctor encounters
- 5.12 Medicolegal examinations
- 5.13 Touching patients
- 5.14 Talking about sex and sexuality
- 5.15 Talking about dying
- 5.16 Doctors and other health professionals as patients
- 5.17 Ending a doctor–patient relationship
- 5.18 The importance of written communication
- 5.19 Intra- and interprofessional communication and relationships

## **6 Consent and informed decision making**

- 6.1 Elements of valid consent
- 6.2 Implied, oral or written consent
- 6.3 Consent for surgical or other major invasive procedures
- 6.4 Therapeutic privilege and withholding information
- 6.5 The nocebo effect
- 6.6 Patients who may not be legally able to consent
- 6.7 Consent of children and young people
- 6.8 Children who are intellectually disabled
- 6.9 Substitute decision makers
- 6.10 Consent for special procedures
- 6.11 Treatment without consent
- 6.12 Consent and patients with mental illness
- 6.13 Refusal of treatment
- 6.14 Refusal of blood transfusion
- 6.15 Informed consent and the performance record of the doctor

## **7 Confidentiality, privacy and disclosure**

- 7.1 Confidentiality distinguished from privacy
- 7.2 The ethical basis of confidentiality
- 7.3 Confidentiality in the doctor's surgery
- 7.4 Confidentiality and electronic communication
- 7.5 Confidentiality and medical reports and certificates
- 7.6 Sharing information in the health-care team
- 7.7 Exceptions to the duty of confidentiality
- 7.8 The legal basis of confidentiality
- 7.9 Statutory authorisation of disclosure
- 7.10 Disclosure in court
- 7.11 Public interest and disclosure

- 7.12 Disclosure to the police
- 7.13 The legal basis of privacy
- 7.14 Enforcement provisions
- 7.15 Other considerations

## **8 Medical records, reports and certificates**

- 8.1 The importance of medical records
- 8.2 What is a medical record?
- 8.3 What should be recorded?
- 8.4 Guidelines for making medical records
- 8.5 Electronic medical records
- 8.6 Safety and security of records
- 8.7 Ownership of medical records
- 8.8 Access to medical records
- 8.9 Medical records and privacy legislation
- 8.10 Patient access under privacy and freedom of information law
- 8.11 Releasing medical records to third parties
- 8.12 Retention and destruction of medical records
- 8.13 Retention of medical records when a doctor retires or dies
- 8.14 Medical records and the courts
- 8.15 Medical records and research
- 8.16 Medical reports
- 8.17 Medical certificates

## **9 Negligence, professional liability and adverse events**

- 9.1 Causes of action against doctors
- 9.2 Actions for negligence
- 9.3 Criminal negligence and manslaughter
- 9.4 The doctor's duty of care

- 9.5 The required standard of care
- 9.6 The circumstances of negligence
- 9.7 Assessment of damages
- 9.8 Statutes of limitations
- 9.9 Vicarious liability
- 9.10 The medical indemnity crisis and its outcomes
- 9.11 Adverse events and their prevention
- 9.12 Risk management and preventing claims for negligence
- 9.13 Open disclosure
- 9.14 The power of an apology
- 9.15 The role of medical indemnity organisations

## **10 The regulation of the medical profession**

- 10.1 Historical background
- 10.2 The change to a national system of medical registration
- 10.3 The functions of the Australian Health Workforce Ministerial Council
- 10.4 The role of the Australian Health Workforce Advisory Council
- 10.5 The functions of Australian Health Practitioners Regulation Agency
- 10.6 The functions of the Medical Board of Australia
- 10.7 Current exceptions to uniformity under the National Law
- 10.8 Some teething problems
- 10.9 The impact of the national registration scheme
- 10.10 The establishment and membership of the Medical Board of Australia and state boards
- 10.11 The Australian Medical Council
- 10.12 Medical registration
- 10.13 International medical graduates
- 10.14 Reporting obligations of registered doctors

- 10.15 Registration of medical students
- 10.16 Complaints and discipline or performance hearings
- 10.17 Mandatory reporting obligations
- 10.18 Complaint-handling processes
- 10.19 The investigation of complaints/notifications
- 10.20 What constitutes unprofessional conduct?
- 10.21 Code of practice
- 10.22 The poorly performing doctor
- 10.23 Disciplinary and performance actions and hearings
- 10.24 Nature of complaints subject to tribunal hearings
- 10.25 Trust and the medical practitioner
- 10.26 Sexual misconduct
- 10.27 The impaired practitioner
- 10.28 Illness leading to impairment
- 10.29 Notification and handling of possible impairment
- 10.30 Disruptive doctors
- 10.31 Doctors of bad character
- 10.32 Advertising by doctors
- 10.33 Doctors who practise alternative medicine

## **11 Health-care complaints systems**

- 11.1 Health complaints commissions
- 11.2 Health professionals covered by legislation

- 11.3 Who may lodge a complaint?
- 11.4 Complaints that raise questions of unprofessional conduct
- 11.5 What constitutes a complaint?
- 11.6 How complaints are handled and resolved
- 11.7 The frequency, nature and source of complaints against doctors
- 11.8 Preventing complaints and responding to them

## **12 Sexual and other boundaries**

- 12.1 What are boundaries in clinical medicine and why do they exist?
- 12.2 What constitutes sexual misconduct
- 12.3 The incidence of sexual misconduct
- 12.4 Reasons for under-reporting or failure to complain
- 12.5 The psychodynamics of the breach of professional sexual boundaries
- 12.6 Why sexual misconduct by doctors is ethically unacceptable
- 12.7 Reporting complaints: the doctor's ethical and legal duties
- 12.8 Handling complaints of sexual misconduct
- 12.9 Disciplinary outcomes
- 12.10 False accusations
- 12.11 Benzodiazepines and sexual fantasy
- 12.12 Prevention of sexual misconduct by doctors
- 12.13 Early warning signs
- 12.14 Is rehabilitation possible?

- 12.15 Intimate examinations and the use of chaperones
- 12.16 Sexual abuse and sexual harassment outside the doctor–patient relationship
- 12.17 Other problematic boundary issues

### **13 Personal health of the doctor: illness and impairment**

- 13.1 Ethical and legal responsibilities
- 13.2 The importance of doctor wellbeing
- 13.3 The extent of health problems for doctors
- 13.4 Why doctors become unwell
- 13.5 Prevention and early detection
- 13.6 Sources of help for ill and impaired doctors: treatment and rehabilitation
- 13.7 Caring for yourself and your family
- 13.8 Treating other doctors
- 13.9 Doctors who carry a transmissible infection
- 13.10 The ageing doctor

### **14 Patient safety and maintenance of clinical competence**

- 14.1 Maintenance of clinical competence
- 14.2 The terminology of maintaining competence
- 14.3 Maintenance of professional standards programs in Australia
- 14.4 Recertification and revalidation
- 14.5 Patient safety: some recent history
- 14.6 Approaches to patient safety

- 14.7 Other accreditation or certification programs
- 14.8 The role of the doctor in patient safety and risk management

## **15 Resource allocation and rationing in health care**

- 15.1 Ethical considerations
- 15.2 Where resource allocation decisions are made
- 15.3 The doctor and resource allocation
- 15.4 Approaches taken to resource allocation and rationing
- 15.5 The law and resource allocation

## **16 The Australian health-care system**

- 16.1 An overview of the health-care system
- 16.2 Health services for Aboriginal and Torres Strait Islander Australians
- 16.3 Government health departments
- 16.4 Medicare Australia
- 16.5 Medicare regulations for doctors
- 16.6 Specialist recognition for Medicare purposes
- 16.7 The Pharmaceutical Benefits Scheme
- 16.8 Private health insurance
- 16.9 The role of universities and medical colleges
- 16.10 Teaching hospitals
- 16.11 The Australian Medical Association and other associations
- 16.12 Australian Council on Healthcare Standards
- 16.13 Australian Commission on Safety and Quality in Health Care
- 16.14 Some recent reforms

- 16.15 Registration of other health-care providers
- 16.16 Alternative health-care providers
- 16.16 National Health and Medical Research Council

## **17 The doctor and interprofessional relationships**

- 17.1 The legal and ethical context
- 17.2 Nurses
- 17.3 Pharmacists
- 17.4 Aboriginal and Torres Strait Islander health practitioners
- 17.5 Ambulance officers and paramedics
- 17.6 Advice to doctors about requesting an ambulance
- 17.7 Clinical psychologists
- 17.8 Dentists
- 17.9 Dietitians
- 17.10 Occupational therapists
- 17.11 Optometrists
- 17.12 Physiotherapists
- 17.13 Podiatrists
- 17.14 Prosthetists and orthotists
- 17.15 Radiographers
- 17.16 Social workers
- 17.17 Speech pathologists

- 17.18 Chaplains and pastoral care practitioners
- 17.19 Interpreters
- 17.20 Lawyers
- 17.21 Medical librarians
- 17.22 Police
- 17.23 Complementary and alternative medicine practitioners
- 17.24 Chiropractors
- 17.25 Osteopaths
- 17.26 Traditional Chinese medicine practitioners

## **18 Entering and leaving practice and practice management**

- 18.1 Choosing your career
- 18.2 Importance of good practice management
- 18.3 Preparing to enter private practice
- 18.4 Setting up a medical practice
- 18.5 Options to avoid managing your own practice
- 18.6 Recognition by Medicare Australia
- 18.7 Medical indemnity
- 18.8 Selecting, employing and training staff
- 18.9 Caring for staff and staff safety
- 18.10 Infection control and patient safety
- 18.11 After-hours arrangements

- 18.12 Marketing the practice/advertising
- 18.13 Planning for a healthy approach to work
- 18.14 Closing a medical practice
- 18.15 Planning for retirement

## **19 Doctors, industry and conflicts of interest**

- 19.1 Ethical issues at stake
- 19.2 Defining conflict of interest
- 19.3 How industry interacts with doctors
- 19.4 What industry claims about its interactions
- 19.5 The behaviour of the pharmaceutical industry
- 19.6 How and why industry approaches work
- 19.7 The effect of industry interactions on doctors
- 19.8 The effect of doctor-industry relationships on patient trust
- 19.9 Medical students and medical education
- 19.10 Continuing medical education
- 19.11 Industry effects on clinical research
- 19.12 Clinical practice guidelines
- 19.13 Conflict of interest and universities, medical colleges and medical associations
- 19.14 Conflict of interest and medical journals
- 19.15 The industry's response to public concerns
- 19.16 How to best deal with conflicts of interest

19.17 Some important ways forward

19.18 Medical and surgical device companies

## **20 Medical research**

20.1 Codes of ethics in clinical research

20.2 Research governance

20.3 What constitutes clinical research

20.4 Requirements for ethically acceptable research

20.5 Special areas in medical research

20.6 Standards for responsible research conduct

20.7 Patenting of medical procedures

20.8 Research undertaken in private medical practice

20.9 Misconduct in medical research

20.10 Biomedical research using animals

## **21 Prescribing and administering drugs**

21.1 Standard schedule of drugs and poisons

21.2 Some relevant terminology

21.3 Prescribing drugs: general advice

21.4 Computer-generated prescriptions

21.5 Authority prescriptions

21.6 Prescribing drugs of dependence

21.7 Storage and record keeping of drugs of dependence

- 21.8 Storage of Schedule 4 drugs
- 21.9 Relationship of doctors with pharmacists
- 21.10 Prescribing for family and relatives
- 21.11 Prescribing in an emergency
- 21.12 Prescribing for patients travelling abroad
- 21.13 Prescribing in hospitals and nursing homes
- 21.14 Prescribing or dispensing unregistered drugs
- 21.15 Prescribing drugs outside their specific indications
- 21.16 Prescribing benzodiazepines
- 21.17 Prescribing drugs of dependence for chronic non-malignant conditions
- 21.18 Generic versus trade names
- 21.19 Prescribing and dispensing
- 21.20 Responsibilities of patients

## **22 Diagnosing and certifying death and the role of the coroner**

- 22.1 Recent developments in the diagnosis of death
- 22.2 Responsibilities of doctors attending a person thought to be dead
- 22.3 Responsibility for completing the death certificate
- 22.4 The cause of death
- 22.5 Different types of death certificates
- 22.6 Providing the death certificate
- 22.7 Deaths reportable to coroners

- 22.8 Surgical, anaesthetic and adverse event-related deaths
- 22.9 Death related to fractured neck of femur among elderly patients
- 22.10 Cremation
- 22.11 The diagnosis of brain death
- 22.12 Brain death and organ transplantation
- 22.13 The use of tissues removed at autopsy

## **23 Births, assisted reproductive technology, family law and child protection**

- 23.1 Notification of births (including stillbirths)
- 23.2 Assisted reproductive technology
- 23.3 Parentage issues in artificial insemination by donor and in-vitro fertilisation
- 23.4 Surrogate motherhood
- 23.5 The Commonwealth *Family Law Act 1975*
- 23.6 Child abuse and child protection

## **24 Termination of pregnancy and related issues**

- 24.1 Legal regulation of abortion: historical background
- 24.2 Abortion law in Australia
- 24.3 The law in the Australian Capital Territory, Victoria and Tasmania
- 24.4 Early medical abortion
- 24.5 Abortion and conscientious objection
- 24.6 Proportionality of risk
- 24.7 Late term (third trimester) abortion

24.8 Child destruction

24.9 Concealment of birth

## **25 End-of-life care**

25.1 Professional responsibilities in end-of-life care

25.2 Good-quality end-of-life care: a 'good death'

25.3 Futile or burdensome treatment, and withholding or withdrawing treatment

25.4 Advance care plans and directives

25.5 Refusal of medical treatment

25.6 Not-for-resuscitation orders

25.7 The role of the courts in end-of-life care

25.8 Provision of palliative care

25.9 Treatment decisions for newborn infants

25.10 Withholding or withdrawing treatment in children

25.11 Post-coma unresponsiveness

25.12 Euthanasia and physician-assisted suicide

## **26 The law and people with mental illness**

26.1 Definition of mental illness

26.2 Admission procedures

26.3 Involuntary admission

26.4 Use of seclusion and restraint

26.5 Persons incapable of caring for themselves

- 26.6 Community treatment orders
- 26.7 Security admissions
- 26.8 Patients' rights
- 26.9 Community and official visitors
- 26.10 Special treatment procedures
- 26.11 Consent to non-psychiatric treatment
- 26.12 Review and appeal procedures

## **27 The law and courts in Australia**

- 27.1 Sources and forms of law in Australia
- 27.2 Legislation
- 27.3 The Australian Federation
- 27.4 Codification
- 27.5 Subordinate legislation
- 27.6 Schedules
- 27.7 Common law
- 27.8 Types of Australian law
- 27.9 Standards of proof
- 27.10 Civil litigation: contract and torts

- 27.11 Crimes
- 27.12 Courts of law in Australia
- 27.13 Administrative tribunals
- 27.14 Commonwealth Ombudsman

## **28 Medicolegal examinations and reports, court procedures and expert evidence**

- 28.1 Medicolegal reports
- 28.2 Problems arising in medicolegal examinations
- 28.3 Expert witness reports
- 28.4 Court procedures
- 28.5 The adversarial system
- 28.6 The giving of evidence
- 28.7 Evidence of fact
- 28.8 Hearsay evidence
- 28.9 Appearing in court
- 28.10 Subpoena
- 28.11 The doctor as a witness
- 28.12 Expert evidence
- 28.13 The experience of being a medical witness
- 28.14 Fees for court appearances
- 28.15 Doctors and jury duty

## **29 Other legislation relevant to medical practice**

- 29.1 Social security legislation
- 29.2 Testamentary capacity and witnessing wills
- 29.3 Statutory declarations
- 29.4 Responsibilities of doctors in relation to injury or accident
- 29.5 Workers' compensation and rehabilitation
- 29.6 Pre-employment medical examinations
- 29.7 Motor vehicle accidents
- 29.8 Giving roadside assistance
- 29.9 Fitness to drive a motor vehicle
- 29.10 Doctors' responsibilities to individuals at risk
- 29.11 Child abuse
- 29.12 Infectious diseases
- 29.13 Doctors and people with intellectual disability
- 29.14 Notification of cancer
- 29.15 Alcohol- and drug-dependent persons
- 29.16 Blood samples from persons accused of serious crime
- 29.17 Trade practices legislation
- 29.18 Firearms legislation

## **Tables**

- 6.1 Approach to assessing decision-making capacity p 14
- 6.2 Guardianship legislation and public advocates and guardians p 23

- 7.1 Health privacy and information legislation and websites p 17
- 11.1 Health complaints commissioners (or equivalent) p 3
- 13.1. Names, telephone numbers and websites of doctors' health advisory services p 12
- 21.1 Legislation controlling the prescription and use of drugs p 2
- 21.2 Contact details for drugs of dependence units in each state and territory p 12
- 22.1 Legislation providing for the definition of death p 2
- 22.2 Legislation providing for the certification of death p 5
- 22.3 Comparison of state and territory coroners acts: reportable deaths generally p 10
- 23.1 Births, deaths and marriages registration acts: summary of notification obligations p 2
- 23.2 Notification of suspected child abuse p 13
- 25.1 Legislation regarding advance care directives and refusal of treatment p 10
- 26.1 Mental health legislation and mental health review tribunals p 12
