

# Are you an international medical graduate?

Tell Australia your story!

**International Medical Graduate Experiences Survey**

## International Medical Graduate Experiences Survey

Share your experiences of the assessment process and help improve the experiences of international medical graduates looking to practise medicine in Australia.

The AMC is conducting a survey of international medical graduates to better understand the experiences and challenges you face when navigating assessment pathways and entry into the Australian medical workforce.

The survey will allow us to look at how we can improve the experience for international medical graduates and to identify what further support is needed.

Tell us what has helped you on your path to working as a doctor in Australia. We also want to know about the problems.

**Survey closes 5pm (AEST), Tuesday 26 September.**
