# Eligibility

---

## Check to determine your assessment pathway to registration

International medical graduates (IMGs) whose medical qualifications are from a medical school outside Australia or New Zealand and who are seeking registration to practise medicine in Australia must provide evidence of eligibility to undertake one of the following pathways:

- [Competent Authority pathway](#)
- [Standard pathway](#)
- [Specialist pathway](#)
- [Short term training in a medical specialty pathway](#).

Use the [check guide](#) to determine which pathway(s) you may be eligible for.

Also refer to the [Medical Board of Australia's](#) (MBA) website for further information on the requirements for different registration types.

## Check eligible medical schools, medical degree titles (final medical diploma/ primary qualification) and graduation years

The primary source verification of [medical qualifications](#) is mandated under the Health Practitioner Regulation National Law Act 2009 (National Law) for all IMGs seeking registration in any category in Australia.

The AMC uses the Education Commission of Foreign Medical Graduates (ECFMG), a member of Intealth, Electronic Portfolio of International Credentials (EPIC) rigorous primary source verification service for verifying medical credentials.

Before applying for your AMC portfolio, you must check:

- your medical school
- your medical degree title (final medical diploma/primary qualification)
- graduation year

You can check these via the check on the [AMC website](#). Please follow these steps.

## Step 1 – Confirm your medical school is eligible to proceed with your AMC portfolio

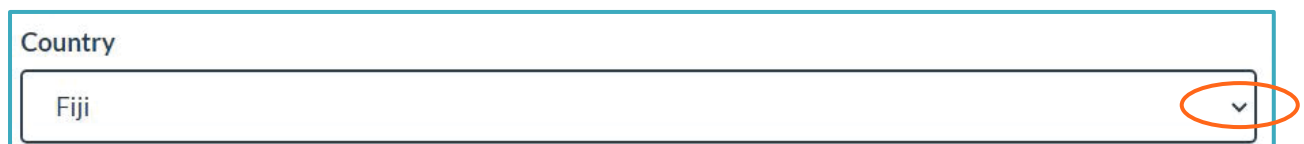

IMGs who have a medical degree (final medical diploma/primary qualification) in clinical medicine and surgery awarded by a training institution as listed on the [AMC website](#) are eligible to establish an AMC portfolio.

The World Directory of Medical Schools (WDoMS) is the AMC's primary source for a list of medical schools, their dates of operation, and degrees awarded. The AMC's eligibility requirements align with the eligibility requirements that ECFMG lists through its '[ECFMG sponsor notes](#)' in WDoMS. It is only relevant for medical institutions that issued your medical degree (final medical diploma/ primary qualification). It is not relevant for postgraduate/specialist qualifications.

**Note that the information in the medical school eligibility tool is based on the most current information available and is subject to change.**

### Select the relevant country

by using the dropdown arrow

A screenshot of a web form with a label 'Country' above a dropdown menu. The dropdown menu shows 'Fiji' as the selected option. A small downward-pointing arrow is visible on the right side of the dropdown box, which is circled in orange.

### Select your medical school

#### What if I'm unable to find my medical school, degree title and/or graduation year?

Contact your medical school. An official from your medical school will need to follow the steps in [Requesting an ECFMG Sponsor Note](#). If the ECFMG determines that a medical school meets the requirements, it will include an ECFMG Sponsor Note in the school's WDoMS listing.

**Step 2 – Confirm the degree title and graduation year of your medical degree (final medical diploma/ primary qualification) are eligible.**

Once you have selected your eligible medical school you will be directed to the World Directory of Medical School website.

## Your Signature

You must add a signature image. You can either drag and drop the image into the **white block** area or click the white block to upload your image.

If your passport does not have your signature you will need to provide secondary identification/evidence.

The screenshot shows a web interface for the '1.4 Your signature' step. At the top, there are four tabs: '1. Identity' (active), '2. Qualifications', '3. Specialist Colleges', and '4. Payment'. Below the tabs, the section title '1.4 Your signature' is displayed. The main content area contains three paragraphs of text: 'If the signature you uploaded is different to the signature on your passport or other acceptable document, you will need to provide evidence of your signature difference.', 'You must provide a copy of the personal details, photo and signature pages of your passport on your AMC portfolio. If your passport does not have a signature, you will need to submit an acceptable current/valid documents as secondary identification.', and 'To ensure your signature complies to the AMCs requirements, refer to [AMC Candidate Account Guide - Evidence of Name/Signature difference/change or no signature section](#).' Below the text is a large white rectangular area with a dashed border, intended for the signature image. At the bottom of this area, a small text line reads: 'You can drag and drop an image of your signature onto the target above or click to select.' At the very bottom of the form, there are three buttons: 'Cancel' on the left, and 'Previous' and 'Next' on the right.

### Your MyIntealth ID

Enter the **MyIntealth ID exactly as issued to you by ECFMG** (this is crucial for live validation with ECFMG and will allow you to proceed with your portfolio application).

#### 2.1 Your MyIntealth ID

The AMC requires you to add your [MyIntealth ID](#).

- If you do not have a MyIntealth account, you will need to [create one](#). You will not be able to establish an AMC portfolio without entering your MyIntealth ID below.
- If you have created a MyIntealth account but have not been issued with a MyIntealth ID, please note that it may take up to 3 business days for ECFMG, a member of Intealth, to allocate an MyIntealth ID to you.
- If you already have a MyIntealth account, log in to your MyIntealth account and retrieve your MyIntealth ID, which should appear as a **9-digit number**. Enter the MyIntealth ID in the field below.
- If you have not been required to submit further qualifications for verification, you are **NOT** required to establish an AMC portfolio. Please return to the [landing](#) page for other options.

## Enter your medical degree (final medical diploma/primary qualification) details.

Read the information provided in the top 3 sections of the 'Your medical degree (final medical diploma/primary qualification)' tab before entering your details.

### 2.2 Your medical degree (final medical diploma/primary qualification)

If you are required to add postgraduate/specialist qualifications only, you will need to click the [Skip](#) button here or at the bottom of this page to continue to the 'Your postgraduate credential(s) and/or specialist qualification(s)' page.

For medical degree (final medical diploma/primary qualification) requirements: only submit **either** your final medical diploma, **or** your transcript, **or** your alternate graduate certificate. Please do **not** submit all options for MyIntealth verification as the AMC can only record **one** – the final medical diploma is the preferred option. If the document has been accepted by ECFMG for MyIntealth verification purposes, be assured the AMC will accept it to upload to your AMC candidate account.

**IMPORTANT:** If you already added either a final medical school transcript or alternate graduation document / medical school letter for verification to your AMC candidate account, Ahpra might require you to submit your final medical diploma for verification when applying for registration as well. Although you do not have to add the details to this page again, you will need to have it verified through ECFMG via MyIntealth and ensure the AMC receives the MyIntealth notification and MyIntealth report statuses. This will incur additional costs by ECFMG.

The following types are not eligible to be added to your AMC candidate account: *Medical registrations/license to practice, PhDs, research, internship/housemanship/foundation documents, partially completed training/qualifications, scientific (for e.g. Bachelor of Science), short courses or Australian/Australasian qualifications.*

### Add more eligible medical qualification(s)

To be able to add eligible medical qualification(s) to your AMC candidate account, you must have established an AMC (initial) portfolio and assigned with an AMC candidate number.

If you are required by either the Medical Board of Australia and/or an Australian/Australasian Specialist Medical College to submit further medical specialist/postgraduate qualification(s) for MyIntealth verification, a fee is payable for each qualification added to your AMC candidate account. Do NOT add qualification(s) already verified via the EICS process through the AMC, or already added to your AMC candidate account.

- a. For medical degree (final medical diploma/primary qualification) purposes, note the following:
  - If you have submitted the final medical diploma for verification through your MyIntealth account, you are not required to submit the alternate graduation document and/or the final medical transcript for verification as well (the AMC is only able to show 1 category on your AMC candidate account).
  - **IMPORTANT:** If you already added either a final medical school transcript or alternate graduation document / medical school letter for verification to your AMC candidate account and verified through MyIntealth, the Medical Board of Australia might require you to submit your final medical diploma for verification when applying for medical registration as well. Although you do not have to add the details again to the AMC candidate account in the medical degree (final medical diploma/primary qualification) tab you will need to have it verified through ECFMG via MyIntealth and ensure the AMC receives the MyIntealth notification and MyIntealth report statuses. This will incur additional costs by [ECFMG](#).
  - IMGs with a New Zealand medical degree (primary qualification/final medical diploma) obtained from an eligible medical school as listed on the [AMC website](#), can choose to obtain MyIntealth verification of their medical degree via ECFMG, but is not mandated to do so for registration purposes. It is therefore an applicant's decision to submit an AMC portfolio application and state their medical degree details. The AMC encourages all IMG's to seek advice from the Board to determine the medical [registration requirements](#).
- b. For specialist qualification/postgraduate training enquiries, please contact the relevant Australian/Australasian Specialist College to confirm which qualification(s) are required to be verified for their specialist assessment/registration purposes.
- c. The following types are NOT eligible to be added to your AMC candidate account: Medical registrations/license to practice, PhDs, research, internship/housemanship/foundation documents, partially completed training/qualifications, scientific (for e.g. Bachelor of Science), short courses or Australian/Australasian qualifications.

Refer to the [ECFMG website](#) for a list of MyIntealth medical qualification categories.

It is important to note that all relevant verifications are listed on the AMC's portal, accessed by the Medical Board of Australia for registration purposes, and the relevant Australian/Australasian Specialist Medical Colleges for specialist assessment purposes.
